A LaTeX Submission Template for Reviews of Modern Physics

First Author[1] and Second Author[2]
[1] *Department of Example Physics, Example University, Wuhan 430070, China*
[2] *Example Institute of Physics, Beijing 100190, China*

This document demonstrates the official American Physical Society `revtex4-2` class configured for *Reviews of Modern Physics*. It is a template, not a real manuscript: replace the front matter, body text, figures, tables, and references with your own material.

I. INTRODUCTION

This document is a submission template for *Reviews of Modern Physics*. It is typeset with the publisher's official LaTeX document class; the class, not this file, controls the page layout, fonts, and reference formatting. Every piece of text in this sample—including the author names, affiliations, abstract, and references—is a placeholder (Author and Author, 2024; Author, 2020).

Replace the sample material with your own manuscript, but keep the document class and the front-matter commands unchanged. Check the journal's current Guide for Authors before submission because article types, word limits, and reference styles can change.

II. USING THIS TEMPLATE

- Edit `main.tex` only; the accompanying `.cls`, `.sty`, and `.bst` files are official files and must remain unmodified.
- Put figures in `figures/` and include them with `\includegraphics`; a sample vector figure is already provided.
- Replace the entries in `references.bib` and cite them with `\cite`. The two entries shipped with the template are examples.
- Build the PDF with `latexmk -pdf main.tex`.

III. MATHEMATICS, TABLES, AND FIGURES

Inline mathematics such as $E = mc^2$ and displayed equations are supported:

$$\int_{-\infty}^{\infty} e^{-x^2}\,\mathrm{d}x = \sqrt{\pi}. \tag{1}$$

TABLE I An example table typeset with `booktabs`. Replace it with your own data.

Item	Value	Unit
Alpha	1.0	a.u.
Beta	2.0	a.u.

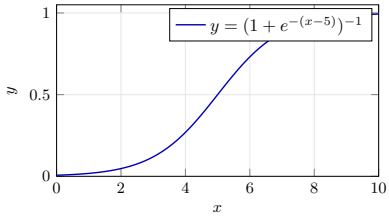

FIG. 1 An example vector figure. Replace the file in `figures/` with your own artwork.

IV. CONCLUSION

Replace this paragraph with the conclusion of your manuscript. The template is intentionally minimal: journal-specific requirements should be taken from the current author guidelines rather than added as local formatting hacks.

ACKNOWLEDGMENTS

The authors thank the example funding agency for support.
